

Stricktux-Addon: Fedora Infinity

You can add a Fedora Infinity to Tux's belly.

The logo is a registered trademark of RedHat, Inc. for the Fedora Project. We are grateful to have received permission to use the logo and publish this knitting pattern.

Materials:

- Yarn in the same weight as the body
 - colors: white, light blue and dark blue
- The shades of blue should be as close as possible to the colours dictated by Fedora:

		Display Colors				Print Colors				
Name	Swatch	R	G	B	Hex	C	M	Y	K	Pantone ®
Fedora Blue		60	110	180	#3c6eb4	100%	46%	0%	0%	2935
Fedora Dark Blue		41	65	114	#294172	100%	57%	0%	38%	541

Fedora Infinity

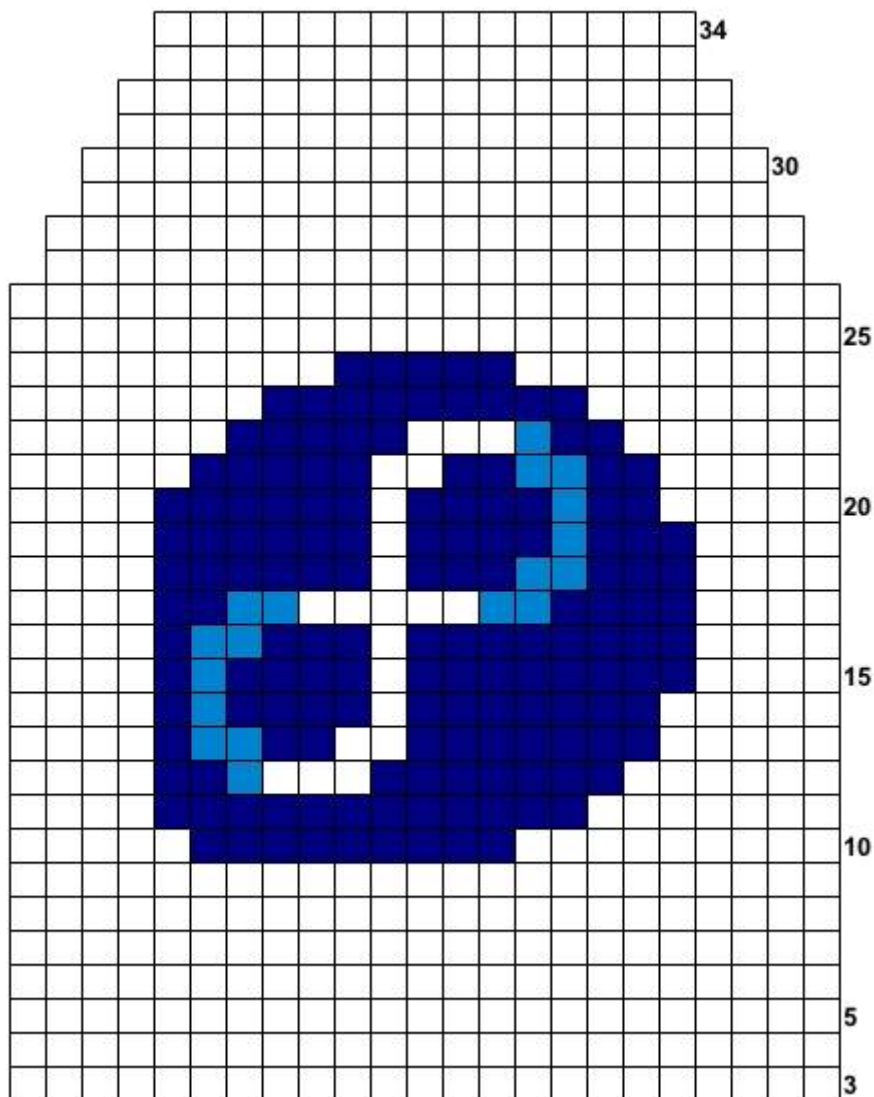

white, light blue and dark blue

The Fedora Infinity can be knitted directly in stranded knitting, or can be applied afterwards in duplicate stitch.

There is a good duplicate stitch tutorial available at

http://bellaknitting.typepad.com/bella_knitting/2007/08/duplicate-stitc.html

The chart starts at row 3 of the Tux's belly.

Do you like this pattern?

This pattern is provided, as are all the patterns on stricktux.de, free of charge.

The Creative Commons license allows you to redistribute and change this pattern, but not to sell it. The only conditions are that my name must be included on any altered patterns as author of the original pattern, and that you also distribute under the CC:BY-NC-SA license.

Nonetheless, I would be pleased by some small recognition for the pattern. I would be particularly glad to see pictures of projects from stricktux.de patterns. Please send your pictures to bilder@stricktux.de.

Mention stricktux.de on your social media accounts or your blog or wherever else you can think of. Every visit to the site tells me I'm not just doing this for myself!
